

EMPOWERING SUCCESS THROUGH DEDICATED ACADEMIC SUPPORT

At Management and Science University (MSU), we are committed to ensuring that every student, regardless of ability, has access to a supportive and inclusive learning environment. For students with learning disabilities, hearing impairments, or other challenges, MSU offers a range of tailored services designed to foster academic success and personal growth.

Accessible Learning Resources

We provide specialized facilities, including dedicated workstations and computer labs equipped to support students with special needs. Our campus also offers remedial classes and personalized mentoring programs to help students overcome academic challenges and thrive in their studies.

1. Sign Language Interpreters and Note-Takers

For hearing-impaired students, we arrange professional sign language interpreters or note-takers to facilitate seamless communication during lectures and presentations. This ensures that every student can fully engage with the learning experience.

2. Customized Assessment Support

Recognizing that every student has unique needs, MSU accommodates requests for exams and presentations with assistance, ensuring fairness and equal opportunities. This includes extended time, adaptive technologies, or other necessary resources.

3. Holistic Support for Student Success

Our holistic approach extends beyond academics. Through the guidance of dedicated mentors and faculty members, we

nurture
every
student's
potential,

building their confidence and preparing them for future success.

At MSU, inclusivity is more than just a principle, it's a commitment to empowering all students to reach their fullest potential. By offering comprehensive academic support, specialized resources, and personalized guidance, we ensure that no student is left behind. Together, we create an environment where every challenge becomes an opportunity, and every student is equipped to succeed.
